Note to Families

Hello families. Fall has arrived! As we enter Autumn, we are excited to talk about the different seasons, the changing colors of the leaves, and all the things that make us think of Fall. We will also be learning about various animals, their habitats, and what they need to live and grow. October is a fun month, and we're looking forward to everything we have planned for the kids.

Mark your calendar

Thursday 10/10: Picture Day
