Math

Our math curriculum comes with lots of manipulatives for us to use throughout the day. We have been using them for counting, sorting, making designs and creating patterns. We have been practicing proper number formation by singing songs to help us remember.

Monthly Themes

Our September themes are Learning and playing together, School, apples.

Reading

We have plenty of books to read in Kindergarten! We read them as a class and on our own. As a whole class we have been reading books that align with our monthly theme. Many of our books focus on feeling and emotions, and how to express what we are feeling. All students are encouraged to relax in our book center during choice time. We have also been enjoying reading/singing nursery rhymes and drawing the corresponding pictures. We have used puppets during some of the stories, students love retelling the story using the puppets!

Important Dates

9/5-Meet your Teacher/ Book Fair

9/11- Patriot Day

9/13- Picture day

9/27- $\frac{1}{2}$ day

Fountas & Pinnell

Our curriculum focuses on concepts that every Kindergartner should know. During the year we will be working on:

Phonological Awareness
Letters and sounds
Reading words
Early reading concepts

Extension at Home

Talk to your child and ask them how the day went. During a meal, play a guessing game to help children get to know the materials in our class.

"Where is your journal at in your room?"

"If I wanted to use the crayons where would I find them?"

Help your child practice writing their name
